Comments: (If possible, please reference section number and/or page number in document if applicable.)

- 1... Please consider this a letter of support for the Yucca Mountain Project. I  
support the nuclear power industry as a way to produce efficient electricity  
without depleting our natural non-renewable resources such as coal and gas.
- 2 As owner of the Longstreet Inn, located in the adjacent Amargosa Valley, I find  
the argument that the repository would discourage tourism to be nothing but  
an unfounded scare tactic. I feel that the Department of Energy proposals to  
...1 transport and store spent nuclear fuel have been overengineered to the point  
that any potential risk is virtually eliminated. I also recognize the potential  
financial benefits to the State of Nevada. I urge the Department of Energy to  
move forward with the Yucca Mountain Project.

Sincerely,

Jim Marsh

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
